

Dr. Donovan Hare splits his time as an Associate Professor of Mathematics at the University of British Columbia, Okanagan, and a discrete optimization consultant to industry in Canada and the US. He has earned a BSc at the University of Victoria in Mathematics and Computer Science, a MSc at the University of Alberta in Mathematics, and a PhD at Simon Fraser University in Mathematics. He has worked in the high stakes testing, health care, financial services, production and transportation industries with such companies as the Medical Council of Canada, the American Institute of Certified Public Accountants, Educational Testing Services, Ameriquest, Anheuser Busch, Werner Enterprises, and ILOG (now part of IBM). He enjoys studying graph theory and combinatorics problems, particularly if coloring is involved.
